

OMNI 10

Cas Number:108-88-3, 67-64-1, 67-56-1, 64742-89-8, 79-20-9, 67-63-0, 111-76-2

OMNI-10 is a premium solvent used in many industrial applications. It is primarily used as a gun wash/thinner. OMNI-10 act very fast, cleans thoroughly and leaves no residual residues. The quality of OMNI-10 is consistent and out-performs many other competitor blends. This material has been produced for decades with a proven track record within the automotive, furniture restoration, and adhesive industries.

Typical Properties

- Specific Gravity:** .86 @ 25C
Boiling Point: 137-140C (279-284F) - lit
Flash Point: 25C (77F) - closed cup
Vapor Pressure: 24 hPa (18 mmHg) at 37.70C (99.86F)
Color and Form: Clear, liquid, colorless

Specifications

Specification	Value	Method
Aromatic/Aliphatic solvents	40-45%	
Alcohols	0-15%	
Esters	0-20%	
Ketones	20-30%	

Packaging and Shipping

FOB, Sumter, Texas, USA. Available in Bulk and 385 lb. net weight drum quantities and 35 lb. net weight pail quantities.
